SUMMARY

Full-Stack & AI Developer with experience in building MERN applications, RAG-based AI systems, and data analytics dashboards. Skilled in Java, Python, React.js, Node.js, SQL, Power BI, REST APIs, and problem-solving.

EDUCATION

B.Tech – Computer Science & Engineering Neil Gogte Institute of Technology CGPA: 8.51	Nov 2022 – May 2026
Higher Secondary Education (MPC) Narayana Junior College 88.6%	May 2020 – May 2022
Secondary Education (SSC) SR.Prime School, Nizamabad CGPA: 10	April 2020

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Web Technologies: HTML5, CSS, React.js, Node.js, Express.js, REST APIs

AI & Machine Learning: LLMs, RAG, NumPy, Pandas, Matplotlib, Scikit-learn, FAISS

Networking: TCP/IP, DNS, DHCP, Routing, Switching, Subnetting, OSI Model

Cloud: AWS (EC2, S3, IAM, VPC – Basics)

Data Analytics: Power BI, SQL Server, Microsoft Excel

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Visual Studio Code

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

DocuQuery AI – RAG-Based Document Intelligence | Python, FAISS, FastAPI, LangChain, LLM, React

- Developed a full-stack **RAG** system using **LLMs** to summarize PDFs and answer contextual queries, reducing manual reading effort by **~50%**.
- Implemented semantic search using **FAISS**, achieving 85%+ relevant context retrieval accuracy.
- Integrated LLMs via **LangChain** to generate context-aware responses, improving answer relevance by **~35%** over keyword-based search.
- Designed a **React**-based chat interface integrated with a **FastAPI** backend, delivering contextual query responses with average processing times of 2–3 seconds.

MoneyMap – Personal Finance Tracking System | React, Node.js, Express.js, MongoDB

- Built a full-stack **MERN** finance application with **12+ REST API endpoints** for income, expense, category, and transaction management.
- Implemented **JWT-based authentication** with protected routes and designed an optimized **MongoDB** schema for secure user management and efficient data retrieval.
- Developed a responsive **React.js dashboard** displaying real-time balance, spending insights, and categorized transactions, reducing manual expense tracking by **70%**.

Customer Behavior Analytics Dashboard | Power BI, SQL Server, Microsoft Excel, DAX

- Designed an interactive **Power BI dashboard** analyzing **25K+ sales records** with **12+ KPIs**, improving reporting efficiency by **60%**.
- Developed **20+ DAX measures** and SQL queries for sales, revenue, and customer analytics.
- Created **10+ interactive visuals** with slicers and drill-through for business insights.

CERTIFICATIONS

- SQL and Relational Databases – IBM Developer Skills Network
- Python – HackerRank
- Software Engineering Job Simulation – Forage

EXTRACURRICULAR ACTIVITIES

- Participated in **Techtonic**, the annual technical fest at Neil Gogte Institute of Technology.
- Active member of **Photography Club** and **Sports Club**
